Over 150 illustrations and floor plans.

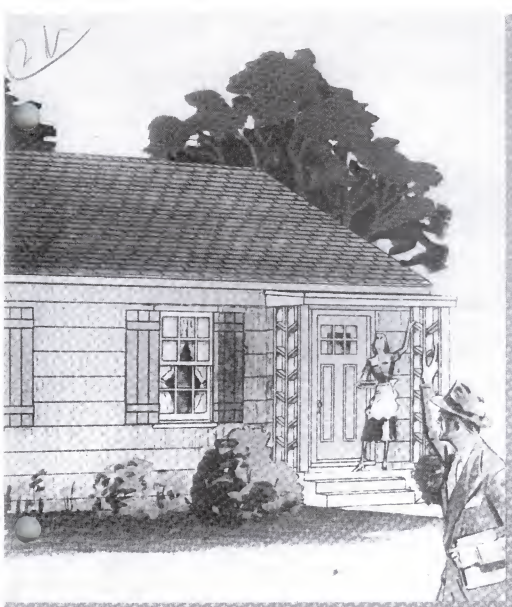
Ramblers and ranch-houses with economical floor plans.

Compact two-stories for city lots.

Utility Cores which newlyweds can expand later.

50 CENTS

60¢ IN CANADA



HOMART

Build your own home at low cost!

Sears draws upon 30 years' experience in the ready-to-erect building field

Presenting 5 sizes of building in two ways . . .

1. With floor plan that includes a utility room (for "basementless" erection), or
2. With plan for erection of building on a basement foundation.

• *Factory-built in ready-to-join sections.* Three men can assemble sub-floor and erect walls and roof sections . . . that is, get the building "under roof" in 3 days or less. All pieces and bundles are plainly marked for easy identification.

• *Distinctive new exteriors.* All the "pre-fab look" is hidden. Have double-course red cedar shingle siding (outer course in "shake design") and colorful 215-lb. asphalt shingle roof. Windows, shutters, exterior doors, canopy and trellises are all included.

• *Really fine buildings, built for the years.* Much stronger than most conventional frame houses. Heavily trussed and braced, designed for erection on a foundation.

• *Detailed erection instructions and blueprints* are furnished with each building. The following pages of this booklet are designed to give only essential basic information about the various steps in construction and to answer the questions most frequently asked.
